

PetiteJets

Your Single Source Supplier

- 100% customizable
- Has long threads compatible with marble tubs
- Non-adjustable and adjustable flows with partial or complete shutoff
- Comes in Rotary and Directionally barrel assembly for unique comfort

PetiteJets

NEW 100% Shut OFF Neck Jet. Balboa Water Group is proud to introduce the new Petite Jet. The ideal jet for neck jet clusters.

The Petite Jet is 100% adjustable, easily controlled by the end user with a simple turn of the barrel, 100% shut off, giving more options to the end user for their personal massage needs, and 100% customizable, allowing you to stand out from the rest and be a step ahead of your competition with your proprietary design. The Petite Jet is 100% best choice in small jets on the market.

The Petite Jet is offered in a rotary and directional barrel assembly. Offering a small 1.65" diameter and a minimal 0.4" height, allowing for minimum protrusion into the spa wall, leaving a smooth and comfortable surface.

Features

- Bathing well interchangeable and serviceable.
- Long threads for marble tubs.
- Non-adjustable and adjustable flows with partial or complete shutoff.

Options
